

# ANSWERS TO PRAYER

JULY 2019

"For great is the LORD and most worthy of praise; he is to be feared above all gods." Psalm 96:4

## THE PEACE OF FIRST RESPONDER FAMILIES

Thanks to a growing relationship between Junction City churches and their police department, the churches facilitated an appreciation gathering. An elder encouraged the officers and their spouses by sharing that more than 40 churches pray from them monthly. The wonder, relief & peace in the room seemed tangible as many first responders and their spouses heard of the prayer covering for the first time. The knowledge of our prayers and God's protection is contributing to their wellbeing.

## BRAND NEW LED LIGHTS

A church often dreamed and prayed about replacing all of their light fixtures with LED lights to save on electricity, though the price far exceeded their budget. They learned of a large store who planned to replace all of their lights with LEDs. They connected with the business and learned they over-ordered and were looking to donate the leftover lights. The church thought they'd receive a few lights. To their surprise, the store gave them 9 pallets of new LED lights - a \$30-40K donation. Provision comes in many forms!

## A NEW WAREHOUSE

We've partnered with Love Inc by praying for a new warehouse (to store donations that provide their clients furniture & other necessities). They moved into a new space that will house their warehouse and their offices on July 1st! With all of their operations in one location, they will better serve their clients.

## ART: FILLING THE WALLS OF DHS

We've prayed for God to use Christian artists to bring light to our community, and here is one example. A few years ago, the Pacific Rim Art Guild, a collaboration of Christ-following artists, filled DHS hallways with their paintings. The response was so great, that they recently switched out the art with 35 new paintings – even adding new art pieces near workers who requested them.

## REACHING NEIGHBORHOOD KIDS

An older congregation in Camp Creek prayed for more connections with children and families. At their recent kid's musical, nearly 30 kids participated from their *church and the community*. Not all the kids attend church, but they regularly participate in the kids' events.

## WEAPON + DRUG BUST

We prayed for the Eugene Police Department's new Community Safety Program and Street Crimes Unit, in addition to asking for God to expose crime. During a crackdown in May, the new unit discovered machine guns, other weapons and drugs near an elementary school. It led to the arrest of a number of individuals.

## TRAINING COACHES

Coaches clinics are planned for sports coaches in Junction City this summer - an answer to prayer for quality coaches!
